EEL COURSE ON ULTRASOUND IN ENDOMETRIOSIS

DUISBURG | 23. - 24. MAY 2024

EEL Course on Ultrasound in Endometriosis

The EEL is proud to announce a new educational project, starting in May 2024.

These are our aims:

1. Certified education and training in diagnosing endometriosis and adenomyosis by transvaginal ultrasound for professionals in gynecology with advanced skills in endometriosis (gynecological surgeons, sonographers and radiologists) following a standardized curriculum.
2. Creating a network of specialists on ultrasound diagnosis of endometriosis.
3. Connecting skills of ultrasound diagnosis with endometriosis management and treatment.

Who should participate? You are already using ultrasound in your clinical practice, but want to learn more about the advantages and challenges of ultrasound diagnosis of endometriosis and adenomyosis? You ask yourself how to identify the different types and locations of endometriotic lesions and how to assess their severity and impact? Furthermore, you wonder how to perform sophisticated transvaginal sonography with confidence and accuracy? You wish to implement ultrasound diagnosis of endometriosis in your center or improve your existing program? These and more questions will be answered in the new **EEL Course on Ultrasound in Endometriosis** created by the European Endometriosis League (EEL). The courses will take place in some of the most innovative European centers for ultrasound diagnosis of endometriosis. With its combination of interactive workshops, presentations and live-demonstrations, the course offers the unique possibility to enhance your knowledge and skills in all aspects of ultrasound diagnosis of endometriosis in two days full of training, exchange and unforgettable experiences.

Participants: The number of participants per course is limited to 12 persons.

Participation Fee: 800 Euros including certification, lunches, coffee breaks and social dinner. EEL members pay a rate of 650 Euros.

Accommodation: Every participant has to organize accommodation and travel individually.

23. MAY 2024
Day 1 | 09:00 - 17:00

EEL COURSE ON ULTRASOUND IN ENDOMETRIOSIS

DUISBURG | 23. - 24. MAY 2024

Welcome and introduction | H. Krentel

09:00 - 09:15

Principles of modern transvaginal sonography | GE Healthcare

09:15 - 09:35

IDEA Consensus and standard of TVS | S. Guerriero

09:35 - 09:55

#Enzian Classification | J. Keckstein

09:55 - 10:15

Coffee break

10:15 - 10:45

Hands-on I – How to get the best image | GE Healthcare

10:45 - 11:45

Coffee break

11:45 - 12:00

How to diagnosis Adenomyosis and diagnostic pit-falls | T. Tellum

12:00 - 12:20

Endometriomas, IOTA and soft markers | A. Kotlarz

12:20 - 12:40

Peritoneal Endometriosis and Adhesions | S. Schäfer

12:40 - 13:00

Lunch break

13:00 - 14:00

Live ultrasound scan by experts

14:00 - 16:00

Questions and Answers

16:00

24. MAY 2024
Day 2 | 09:00 - 16:00

**EEL COURSE ON ULTRASOUND
IN ENDOMETRIOSIS**

DUISBURG | 23. - 24. MAY 2024

Anterior and lateral compartment | S. Guerriero

09:00 - 09:30

**Posterior compartment I
(Torus uterinus, Rectovaginal space and Vagina)** | A. Constantin

09:30 - 10:00

**Posterior compartment II
(Rectum)** | H. Krentel

10:00 - 10:30

Coffee break

10:30 - 11:00

**Hands-on II: live scan per training group
(3 participants per machine; 4 machines)** | Faculty

11:00 - 13:00

Lunch break

13:00 - 14:00

Sacral nerves | G. Szabo (remote)

14:00 - 14:30

**How to scan the kidneys, the abdominal
wall and the inguinal region** | D. Andrikos

14:30 - 15:00

Question and Answer

15.00

Faculty

Harald Krentel, Alin Constantin, Tina Tellum,
