

EEL MASTERCLASS

Masterclass lead : Prof. Gil Dubernard

 **5-7 November 2026**

 **Lyon, France**

Event location:
Croix-Rousse University Hospital
Lyon, France.

EEL MASTERCLASS

PROGRAMME

Masterclass lead **Prof. Gil Dubernard**

Dates 5–7 November 2026

Venue Croix-Rousse University Hospital, Lyon, France

THURSDAY 5 NOVEMBER

MORNING Live surgeries for deep infiltrating endometriosis

Moderators *Pr M. Canis, G. Dubernard*

- From Clermont-Ferrand: Pr N. Bourdel, Dr C. Figuiet, K. Poirot
- From Lyon: Pr Philip, Dr Pezy, Darnis, Warembourg, Nguyen Ba

AFTERNOON Presentations

- Ovarian cystectomy for endometrioma is not a stripping technique — **M. Canis**
- Reverse technique: rationale and strategy — **M. Canis**
- Prediction of the type of rectal surgery: value of pre- and intraoperative ultrasound imaging — **C-A. Philip**
- How I perform a NOSE technique in 10 steps — **P. Pezy, B. Darnis**
- Functional outcomes after colorectal resections for DE — **A. Bokor**
- Laparoscopic diaphragmatic muscle resection in 10 steps (laparoscopic & robotic) — **N. Bourdel**

Multidisciplinary discussion of 4 cases brought by the attendees

FRIDAY 6 NOVEMBER

Moderators Pr A. Bokor, A. Constantin

MORNING Live surgeries by surgeon sonologists

- Transvaginal ultrasound-guided sclerotherapy for endometriomas
- HIFU treatment of rectal endometriosis
- Combined HIFU treatment and rectal and robotic surgery (partial bladder resection)

AFTERNOON Presentations

- Strategy for safe deep endometriosis excision — **M. Mabrouk**
- Ultrasound imaging of deep infiltrating endometriosis — **B. Chauveau**
- Contribution of AI to the US diagnosis of digestive endometriosis — **C. Jayyosi** Supported by **FemNov**
- How to report deep pelvic disease MRI according to the European consensus, and how I use the dPEI score — **P. Rousset**
- What are the consequences of a diagnosis of superficial endometriosis? — **B. Chauveau, A. Constantin**
- Patient-guided endometriosis surgery: image-guided surgery existed before AI — **M. Canis**

HANDS-ON SESSIONS

- Transvaginal ultrasound simulators for the diagnosis of deep infiltrating endometriosis — **A. Constantin, C-A. Philip** Supported by **SAMSUNG France**
- HIFU treatment of rectal endometriosis — **G. Dubernard, S. Warembourg** Supported by **FocalTherics**

6:15 – 7:15 AM

Run in Lyon

8:30 PM

Dinner

SATURDAY 7 NOVEMBER

- Image-guided endometriosis surgery: from fluorescence to AI — **N. Bourdel**
- Is colorectal resection necessary to improve pain and fertility — **A. Bokor**
- HIFU treatment: therapeutic principle, indications and results — **G. Dubernard**
- How to open a HIFU centre: rationale and experience — **A. Bokor, M. Mabrouk**
- HIFU: future applications in gynaecology — **C-A. Philip**

MASTERCLASS CLOSING M. Canis

- Endometriosis: have we entered a post-truth era?
